GETTING **STARTED**

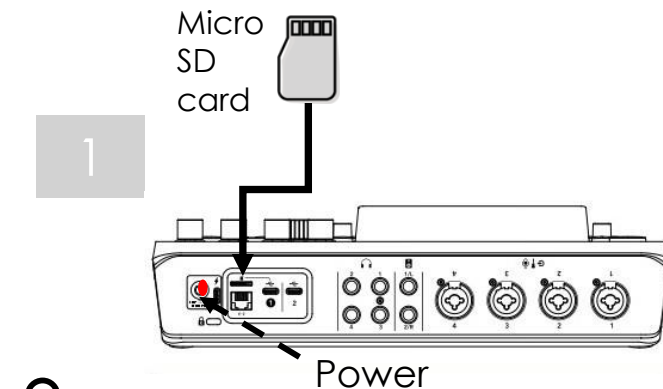

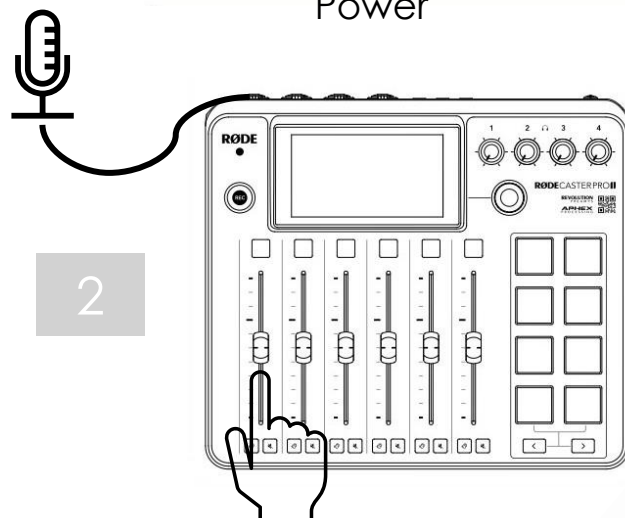

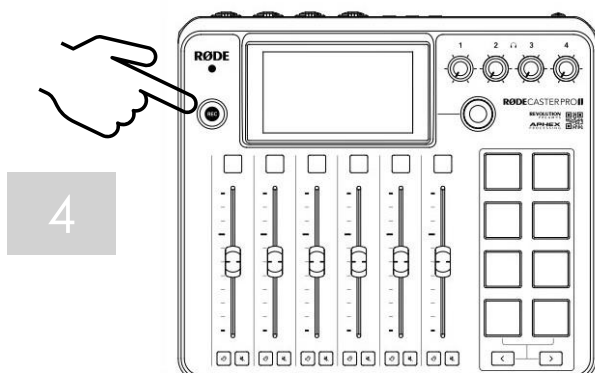

1 Power on and insert your Micro SD at rear. Choose 'format card' on the touch screen if prompted. **Please note formatting will erase any existing data on your card**

2 Raise the faders to set the volume for the microphones you are using. **The microphones have corresponding number labels**

3 Turn up the headphone channels you wish to use. **Headphones have corresponding number labels**

4 Press record to begin. Short press to pause. Long press to stop.

You can also use the on-screen record symbol to start and pause.

## Connecting Callers and Online Guests via Bluetooth

1 — Tap the settings ⚙ then 'System' > 'Bluetooth'. Once this screen displays, the device is discoverable.

**2** — Use the Bluetooth settings on your device to pair with **RODECASTER PRO**

3 — Turn up the Bluetooth fader

Your caller or online guest will now be audible

If you have trouble, **UNPAIR previous phones** ⚙ settings > System > Bluetooth

PLEASE UNPAIR your phone afterward
